LeetCode: https://leetcode.com/u/Jaydip00___/

Professional Summary

Motivated and dedicated engineering student with a strong foundation in Java programming, Data Structures and Algorithms, and backend web development. Passionate about building real-world applications using modern technologies such as Spring Boot, REST APIs, and MySQL. Currently working on a full-stack Internship Portal project designed to help students find and apply for internship opportunities. Actively practicing coding problems on LeetCode to improve problem-solving skills and algorithmic thinking. Seeking internship opportunities in software development where I can apply my technical knowledge, contribute to real projects, and continue learning industry best practices.

Education

Bachelor of Engineering (B.E.) – Electronics and Telecommunication

SKN Sinhgad College of Engineering, Korti, Pandharpur

Expected Graduation: 2027

Technical Skills

Category	Skills
Programming Languages	Java
Backend Technologies	Spring Boot, REST API, Maven
Web Technologies	HTML, CSS, JavaScript
Database	MySQL
Concepts	Object-Oriented Programming, Data Structures, Algorithms
Tools & Platforms	Git, GitHub, IntelliJ IDEA, VS Code, Postman

Project Experience

Internship Portal (Ongoing)

- Developing an Internship Portal that allows students to search and apply for internships.
- Building backend services using Spring Boot framework.
- Designing and implementing RESTful APIs for internship listings and applications.
- Using MySQL database for storing internship data, user information, and applications.
- Testing APIs using Postman to ensure reliability and correct responses.
- Implementing authentication and login functionality for secure user access.
- Designing system architecture for scalable backend services.

Coding Profiles

- LeetCode: https://leetcode.com/u/Jaydip00___/
- Regularly solving Data Structures and Algorithms problems to improve coding skills.
- Practicing algorithmic thinking and problem-solving techniques.

Strengths

- Strong problem-solving mindset
- Passion for backend software development
- Self-motivated learner
- Ability to quickly learn new technologies
- Good teamwork and collaboration skills

Career Interests

- Software Development
- Backend Engineering
- Java Application Development
- Full Stack Web Development
- Building scalable web applications
